TO: The Honorable Janet D. Howell, Chair, Senate Finance Committee The Honorable Luke Torian, Chair, House Appropriations Committee

Fr: Alison G. Land, FACHE, Commissioner, Department of Behavioral Health and Developmental Services

Pursuant to 320 S.2 of the 2020 *Appropriation Act*, the purpose of this letter is to report on the use of FY21 Developmental Disability (DD) waivers slots that have been assigned to individuals by the Community Services Boards and of those how many individuals are currently accessing services.

## Specifically the language requires:

2. The department shall report within 30 days after the close of each quarter, the number of new slots for the fiscal year that have been allocated by Community Services and of those how many are accessing services. The report shall be provided on the department's website.

As mentioned in the first quarter's report, local Waiver Slot Assignment Committee (WSAC) meetings were held across the state between the dates of August 12, 2020 and October 14, 2020 to review those individuals most in need of DD waiver slots and complete the FY 21 DD waivers slot assignment process. After each WSAC met, DBHDS staff completed the slot assignment process by pairing each individual selected for a slot with the appropriate slot in the electronic Waiver Management System (WaMS). For this second quarter report, it will be noted that there are some slots not yet assigned in CSBs that did not have as many individuals in the Priority One category as slots received. According to DD waiver rules, those CSBs have 90 days from the slots' first availability to assign those slots. After that time, the slots will be recommended for assignment by a regional WSAC to Priority One individuals from other CSBs in the region. Some slot assignments will show up in next quarter's report, particularly for those CSBs where WSACs met later in the process.

Table 1 details the number of unique individuals assigned FY21 DD waivers "no restriction" slots (both Community Living and Family & Individual Supports waivers) as of the end of each quarter, by CSB, with the first column representing the total number of FY21 DD waiver slots each CSB had to assign. It should be noted that the numbers in the first quarter column are not the same as included in the first quarter version of this report. This is because it was discovered

that the data pulled for that report included slots assigned through two weeks into the second quarter. This error has been corrected in the table below.

Once a CSB's total number of allocated slots have been assigned, that number will appear in each of the subsequent quarters to indicate that all allocated FY21 slots have been distributed to individuals from the waiting list.

Table 1: Total number of FY 21 DD waivers "no restriction" (both Community Living and Family & Individual Supports waivers) slots assigned by quarter and Community Services Board.

Table 2 details the total number of DD waivers slots appropriated for FY21 by category and the number assigned as of the end of each quarter. Note that DBHDS assigns Facility slots as needed to enable individuals to move from institutional settings. DBHDS also assigns Reserve slots to enable individuals to move between waivers as their needs change or for emergency purposes. More individuals have actually been notified that they will be receiving FY21 Reserve slots than is indicated below. The assignment is not yet formally completed in WaMS, as the practice is to wait until the individual has chosen a provider of the service for which he/she received the reserve slot before moving him/her from the previous waiver slot.

Table 2. Total number of DD waivers slots appropriated for FY21 by category and the

number assigned by quarter.

Slot Type - FY 2021	# of Slots Appropriated	Assigno Quart	21 Slots ed as of er end FY21Q2

CL - Reserve	15	0	0
FIS - Facility	5	0	1
FIS - Regular (No	635	311	625

FIS - Reserve	10	4	6
Total	810	382	755

Finally, Table 3 shows the number of unique individuals who received a FY21 DD waiver slot who are now authorized for at least one DD waiver service. It should be noted that there is typically a significant time delay between slot assignment and service authorization due to the following required steps:

- Individual formal acceptance of the slot offered
- Confirmation/updating of functional and financial eligibility

- Confirmation of updated physical exam
- Individual/family selection of service providers
- Service providers intake process for the new individual
- Development of the Individual Support Plan
- Service Authorization process

This year there have been additional delays due to some day services providers temporarily or permanently closing their doors due to COVID-19, as well as some individuals' families delaying receipt of residential services due to COVID-related concerns. Typically, an individual has 150 days from the date of slot assignment in which to begin services or the slot may be reassigned to another person on the waiting list. During the current pandemic, the Centers for Medicare and Medicaid Services have prohibited the termination of individuals' eligibility for Medicaid services. This has resulted in a temporary halt to actions to repossess assigned slots in situations in which individuals or their families do not begin waiver services in a timely manner.

Table 3. Number of individuals who received a FY 21 DD waiver "no restriction" (both Community Living and Family & Individual Supports waivers) slot by quarter of their first authorized service and CSB.

In conclusion, the allocation of the FY21 DD waiver slots in the "no restriction" category to the CSBs is complete, and by the end of the second quarter most of those were assigned to individuals on the Priority One portion of the statewide waiting list. The process of each individual assigned a DD waiver slot actually starting services is a longer process, but this too has begun.
